Fire retardant bra

- Developed in collaboration with Dr. Terry Trammell and Ms. Jenny Stewart, technical commissioner in charge of safety in IndyCar
- Successfully tested in Indy car, Drag racing and other forms of top-level auto racing
- Now included in the SFI regulations (SFI Approved SFI 3.3 - SFI label on request only - extra-cost)
- Approved by Ms. Michelle Mouton, Chairman of the F.I.A. Women's Committee in Motorsports
- Contains no metal or plastic underwire likely to cause skin burn

"This bra not only is comfortable, but gives me that extra confidence to take risks knowing that my body is entirely protected," said Regan Steedman after her wins at Laguna Seca Raceway in August during the POC meeting.

Stock fire retardant bra

"Besides being supportive and fire retardant, the bra is also machine washable. I am superstitious, but I do wash my bra between races," added Steedman, "I like to feel fresh and clean before I go out on track. Just know that I will be wearing this bra to each and every race. From all of the women drivers out there a giant THANK YOU Stand 21!"
